

# MUNIDANCE

Ocean Wisdom

I don't even dance but I do the money dance  
And my dick ain't hard that's a hunnid in my trunks  
I can hurt him if he wants honey

Okay

Can he hurt me if he wants honey?

No way

See I don't even dance but I do the money dance  
And my dick ain't hard that's a hunnid in my trunks  
Niggas know I got the drip on him

Okay

Can he get a whole block poppin'?

No way

Cruising in a Beemer or a Benz or whatever  
Show this to your cousin or your friends or whatever  
Show this to your brudda in the ends or whatever  
He like it then it's cool he don't likee it it's whatever  
Man was tryna blag it like he certi and he clever  
But this ain't Mozzarella that's Burrata in this Beretta  
Although it might get sticky with the heat for certain breddas

Tell him only melts do a stretch for the cheddar

All this floating on a rock through space

Really doesn't motivate me to be in the rat race

But I won first place while the race still on

I come a hella long way since flickies and bongs

It's all whatever

You live then you die, live right to get your bread up

I tried to be a footballer my ligament would swell up

Oscaslatis savage when you banging in the headers

Skip to robbin' man for benners to afford Margielas

Twisted with the fellas we so mischievous and zealous

This viscous bassline ripped this kid from the terror

Now it's big whips cruise control hot seats and fine leather

It's all whatever

There's more to life than this shit have your fun until you're fed up

We all very hungry it's about time that they fed us

Why they watching eaters doing eating gettin' jealous

All this floating on a rock through space

Really doesn't motivate me to be in the rat race

But I won first place while the race still on

I come a hella long way since flickies and bongs

It's all whatever

You live then you die, live right to get your bread up

I tried to be a footballer my ligament would swell up

Man, oscaslatis savage that's why

I don't even dance but I do the money dance  
And my dick ain't hard that's a hunnid in my trunks  
I can hurt him if he wants honey

Okay

Can he hurt me if he wants honey?

No way

Ay ay ay ay ay ay ay ay

You snitch, I got your bae's face on my waist and it's late

And she says that she wan' taste the dick

She a snake, a witch

She take the piss, she take the oooh

It made you sick

She raised the point, you ain't on shit

She takes the mick, don't hate the Wiz

It's not my fault, rifle

Aim it at the bible

My crew, tribal

I got a bag of disciples, liable to find you

Aiming at a ting at a rival

Running all up in the yard 'fore I pack the chronic I probably might do

And I like that, fight back

Baseball bat night cap, no cap

Hold that, man swing or poke that

Woah, ak that's cool aak but kids stay in school, facts, we need them

Don't brainwash them to roll with tools ak

No lie you're so right she blow mine like blow dry

She know my ting so wide she go slow, we know why

Oh my said

Oh my she so shy but hold nine

She grope mine deep throat mine she closed eyes it's showtime

But it's all whatever

You live then you die, live right to get your bread up

I tried to be a footballer my ligament would swell up

Man, oscarlatis savage that's why

I don't even dance but I do the money dance
