The way I see it, the only way I see it
Happenin' for them is if I fillet or skillet
My brain and kill it
And maybe they catch up with man
But today I see it, and it's just the way I see it
They cannot hang with the gang
They can tray or heal it
But the way we grindin'
They could never ramp with the gang on a daily basis
They evade the greatness
Cuh they know they coulda never bring it to me
You're a scaly racist
And you probably shapeshift
I seen you and another donny lookin' suttin' Maggie Thatcher
Bare saggy patches on your skin
You're lookin' like you wan' recruit me to your scabby faction
Blud that's not 'appenin'
Likkle pussy fully cappin' when they blaggin' rappin'

Four in a Wizza we whippin' a dinger
Don't skrrr it or skid it we riskin' our freedom
I know you're my nigga go show you're my nigga
