

Perspectives

Ocean Wisdom

What would you do if that was me
I stopped, I thought, but
I didn't know what to say
She stopped, she told me
Try see life from a perspective
Like me and you'll see life in a different way
Two three four
Four

Hold your head don't make no sound
I'm your only problem now
On my own I run around
You better hold me back or hold me down

Everyday I come through in all black
Got Dark thoughts trip man mid parkour
She ain't got a nuthin for a mother than her art form
Still school a brother on a dance floor, tip tap
Big straps in the art of war
Replies to them man ready for the castle storm
If you're over the moat just moping
Why waste our energy tryna ask for more
You come help us or forever hold your peace
Too scared to be pushing cuh your soul is weak
Make a likkle drink for the soldier please
You better hush your mouth when the soldier speaks
Earn your right to be born and preach
We earned this right through the goals we reach
Try understand try know the beef
You think we're all frineds till your'e holding teeth
In this life
Picking up molers and wisdoms wishing you'd listen
Whipping and rollers
Looking like some wishful thinking more each day for ya
And the cinematic lifestyle we live in
Make it that small bit different
Painful and hard as subdued submission is something that's swallowed each day for ya
Maniacs I see maniacs
The reason being I can't stay relaxed
I see burning flats and train attacks
They want us to react like a kane reacts and we do
One for the crazy acts
You won't see me trapped by a lady fact
Cause I'm better off tryna chase ladies
After I banked this skrilla I'll save me that it's true

What would you do if that was me
I stopped, I thought, but
I didn't know what to say
She stopped, she told me
Try see life from a perspective
Like me and you'll see life in a different way
Two three four
Four

Hold your head don't make no sound

I'm your only problem now
On my own I run around
You better hold me back or hold me down
