

## Tom & Jerry

Ocean Wisdom

Leaf, wizz, its undescribable  
Its undescribable

The way I reach this level on the beat is indescribable  
My likkle vid went viral now they're telling me I'm viable  
I notice in my town a couple mandem don't abide the rules  
I contemplated guilty and I stumble across a grimy corpse  
Didn't want to replicate the type of drama father saw  
Certain man they carving nasty sore and probably laugh it off  
Never could relate to that  
Went to the estate and back to see my fam  
I'd always pass a groupa young Jamaican man  
A couple times they clock me and said "What a man, you keep it?"  
Luckily for me it weren't a drama catching up and speakin  
But for certain mandem boppin' by they gonna cause kerfuffles  
And I knew they'd always rap about the strally and the duffels  
So I hated that my brother and my sister shared a garden with them  
Still I found the passion for the rapping and I started spitting  
Couldn't lie to get as good as I you gotta know your lines  
Write a lyric every night  
Build yourself a lyric library  
Every single different type  
Singing like, just spitting hype  
Now I drop a written and they wishing that I slip and slide  
I'll be standing firmer, hold my ground like I don't give a shite  
Never did I give a shite, mans getting high and taking flight  
Never did I give a shit, never not a little bit  
Tell em solemn Wizzy sitting sulking about them indie kids  
Sulking about them disney nicks  
You know dem boy are in the mix infecting shit  
Every day he gets nearer to killing Wiz  
Fuck it though I'm 'bout the flow  
They loving the way I be giving them energy  
All of my brothers are one step ahead of our enemies  
Planning and moving it heavily  
Stepping up in the vicinity  
Man I be giving them lyrics  
I'm licking off Hennessey  
All of my brothers be telling me that they be missing the skibbies  
I'm doin it terribly  
Rolling around with a couple of niggas  
A couple of bitches, a couple of doobies  
I'm rolling around with a couple of G's and a couple of dods  
I be rolling with Scoobie I'm down  
I'm at it, I'm rolling, I'm about it  
I'm about it with this bouncer  
I might box him and just bounce it  
Here, here

Do the Tom and Jerry  
Chase me for that cheese  
I'm going overseas to get it  
If she wan' get gwal I'll probably swallow for that cheddar  
She ain't looking to repent, she got the needles like a medic

A likkle dirty something  
Probably got a germ or something

Looking good for 65, but this nitty was thirty something  
Her pussy burn your onions, that's cause she fucked a herd of drunkards  
Certain gyal that are responsive fiending for that deadly drunkard  
Geriatric doctors couldn't feed me nothing, I'm a younger  
Still my clock is ticking, it's why I break the peoples slumber  
Without a pot to piss in, I just bet to keep it under  
How are you supposed to pay the rent if you ain't making beef for lunch  
Never could relate to that  
Went to send the stage and back  
To see my fans  
Always pass a group of young Caucasian man  
They'd always try to stop me and say "What a man, you keep it@"  
Luckily for me it weren't a drama chatting about achievements  
But for couple man they're in the scene, they gonna cause kerfuffles  
Cause they'd always wanna rap about the strally and the duffel  
Don't wanna be friendly to people putting P in their pocket  
I don't agree with that concept, I think it's really obnoxious  
Never could relate to that, find a way to make the cash  
Tell 'em solemn wizzy sitting moaning high, evase the tax  
Face the facts, I need to be rapping  
Cuh whatever I drop is in "Recently Added"
