Ocean Wisdom

It's been a long walk we come this far
30 years need a hundred more
Shed tears an we conjure scars
Step
Right left
Right left and run to war
We forget that we come from stars
We forget that we are just
Specs
Not the ones from spec savers
We just specs so they won't save us
Not stressed actually I'm
Vex
Not blessed wid the creator
The end N to the E A R
It's tempting to eat their necks

Ta ta time when they try to test
Half arse time when try to rep
Darkest time when u dive to depths
That only the maddest of mindsets crept
Trip up the final step
Rip up the final cheque
Stick up the final threat
Lift up the final set
Piff up the final crop
Twist up the final pot
Pick up the final thot
Uh
Uh
Uh
Do it
Take this the d from life
Bait strip the demon time
Great flip I'm feeling fine
8 bricks for speaking rhymes
