

Wasted Life

Oceano

I watch the sky
Hopeless and dying
Her birth is the plight (Of the earth)
Mother earth cries at night
We've been drilling our way towards the end of the world
Don't pray to your God
You're left now to burn
One final breath is your penance

Gasp for a final breath, gasp for a final breath
Let it escape your lungs and sift through the ethereal plane
Lucid reality, lucid reality
As you know it, you know it
Now elevate!

Erase everything you know
The motherfuckers took it for granted
Erase everything you know
Its all taken for granted

I'm tired of this place
I'm tired of the entire human race
You fucked up your planet
Nowhere to turn
Must it start again?

Everything
Everyone's dead
Nowhere to run

It's all worthless
Humankind is a waste of life
Just fucking end it

Humankind is a waste of life
Wasted life
End it all
Humankind is a waste of life
Wasted life
End it all

End it all!
End it all!
