

# One Step Closer

## Oceans Divide

Take another dose  
Wash away your sorrows  
Paint your makeup on  
To hide your pain  
Keep living like there'll  
Never be tomorrow  
Just a pretty face  
Blinded by fame

Lost all you loved  
Left you undone  
This path you chose in vain  
No self-respect  
Too much regret  
You threw it all away

Got yourself alone in life  
Such a crying shame

Live right through a bottle  
Leaves you sick and hollow  
There's no hiding, no disguising  
You're just one, one step closer  
To the grave

Use your looks to get  
Everything you wanted  
Desperation is  
The game you play

You sold your soul  
You lost control  
This path you chose in vain

Got yourself alone in life  
Such a crying shame

Live right through a bottle  
Leaves you sick and hollow  
There's no hiding, no disguising  
You're just one, one step closer  
To the grave

Infection eats within  
It never seems to end  
It calls your name  
It's in your veins  
You can't get it out

Live right through a bottle  
Leaves you sick and hollow  
There's no hiding, no disguising  
You're just one, one step closer  
To the grave

Live right through a bottle  
Leaves you sick and hollow

There's no hiding, no disguising  
You're just one, one step closer  
To the grave
