

Overcome

Oceans Divide

Your cold hearted love left me so blind
Another mistake I can't rewind
To take a breath, walk away
All to save yourself
To leave me here, all alone
Left to fade away

I try to forget just who you are
But I can't erase these scars

'Cause I gave you the world
And you told me a lie
Was it all just the dream?
You are dead in my eyes
If I see you again
I will tell you to run
'Cause the monster in me
Will slowly overcome

I'm feeling so empty, I can't hide
But you never cared with all your pride
You break me down, you pick me up
Just to feel alive
You take it all, I'll take the fall
Just to see between the lies

I try to forget just who you are
But I can't erase these scars

I gave you the world
And you told me a lie
Was it all just the dream?
You are dead in my eyes
If I see you again
I will tell you to run
'Cause the monster in me
Will slowly overcome

If I gave you the world
And you told me a lie
Was it all just the dream?

I gave you the world
And you told me a lie
Was it all just the dream?
You are dead in my eyes
If I see you again
I will tell you to run
'Cause the monster in me
Will slowly overcome

You think you know who you are
You think you know who you are
Who you are
Overcome
You think you know who you are
You think you know who you are

Who you are
Will slowly overcome
