Revolution

Oceans Divide

All the world's consumed by fire
Have we wasted too much time
Patience now it's all or never
To make it out alive

Burdens borne upon our shoulders
How do we choose a side
Focus now and please remember
There's too much on the line

Rise up, let's take the day
Wake up, it's not okay
Won't stop, we'll never fade
We'll fight, we'll break through

Throw your fist to the sky
Show the world you're alive
Let them know it's time
For revolution

Throw your fist to the sky
This is the fight of our lives
Show the world this is
A revolution

The world ablaze without an answer
Now we're fighting for our lives
Second thoughts now turn to anger
So fed up with the lies

All these thoughts are so conflicting
There's no way to set this right
Actions brought on by our fathers
And now we pay the price

Rise up, let's take the day
We'll fight, we'll break through

Throw your fist to the sky
Show the world you're alive
Let them know it's time
For revolution

Throw your fist to the sky
This is the fight of our lives
Show the world this is
A revolution

This is the greatest divide
This is the time we unite
This is the fight of our life
This is the day that we die
We'll find our way
We'll take this day

Throw your fist to the sky
Show the world you're alive

Let them know it's time
For revolution

Throw your fist to the sky
This is the fight of our lives
Show the world this is
A revolution

Throw your fist to the sky
Show the world you're alive
Let them know it's time
For revolution

Throw your fist to the sky
This is the fight of our lives
Show the world this is
A revolution
