

Star Altar

Oceans Of Slumber

Snakes of Eden
The scent of a rabid man
As he grabs her hips and hands

Oh there's no excuse
We're taught to be abuse

Snakes of Eden
Writhing in glass and sand
Grasping at what you can

Oh to keep control
You just can't let us go

The days ahead
Our fear behind
Our hope ahead
And yet we struggle to climb

The days ahead (the days ahead)
Our fear behind (our fear behind)
Our hope ahead as darkness surrounds us

Snakes of Eden
The scent of rabid man
As he grabs her hips and hands

Oh there's no excuse
They're taught to give abuse

Snakes of Eden
Writhing in glass and sand
Grasping at what you can

Oh to keep control
They just can't let us go

The days ahead
Our fear behind
Our hope ahead
And yet we struggle to climb

The days ahead (the days ahead)
Our fear behind (our fear behind)
Our hope ahead
As darkness surrounds us

A bitter life
A flickering life
Filled with starlight

A bitter life
A flickering life
Filled with starlight... and ash

Let the stars be your light
Let the stars be your light

Let the stars be your light
Let the stars be your light

The days ahead
Our fear behind
Our hope ahead
And yet we struggle to climb

The days ahead (the days ahead)
Our fear behind (our fear behind)
Our hope ahead
As darkness surrounds us

A bitter life
A flickering life
Filled with starlight

A bitter life
A flickering life
Filled with starlight
Filled with starlight... and ash

Snakes of Eden
Snakes of Eden
Snakes of Eden
Grasping at what you can
Snakes of Eden
The scent of a rabid man
