

Dark

Oceans

Calm on the surface
A storm in the deep
When all the hope is gone
All that is left is
Me and the rope

In the dark of the night
When thoughts start to burn
To the endless depths
Of our own emptiness

No hope, no hope, no hope, no hope

The mind goes blank
Awake and still not here
Still not here

Cold claws grab the heart
I'm lost in the dark

I need to leave this place
I need to leave it all behind
With all the pain that I must face
All that is left is
Me and the rope

When dawn breaks its path
The surface is calm
But just to the outside world
Inside there's a storm

Cold claws grab the heart
I'm lost in the dark

I need to leave this place
I need to leave it all behind
With all the pain that I must face
All that is left is
Me and the rope

Here I stand
Fading away
Fading away
Fading away
Fading away

Here I stand
Fading away
Fading away
Fading away

Going faster
I can't breathe
This world is strangling me
This is not
Who I want to be
All these lies

I hate humanity

And I hate to hate
But you leave me no choice
How can one not lose hope
With you fucking up everything
It's so hard to not lose hope
After the storm
The surface is calm

It's so hard to not lose hope
If only the depths could be seen
