

Living=Dying

Oceans

Vaster and brighter
Faster and wider
Farther and higher
Another spark will set this world on fire
Vaster and brighter
Faster and wider
Farther and higher
Another spark will set this world on fire

All life is dying
With eyes wide shut
And all the puppets keep dancing
On their strings (Just smiling)

Facing a well known enemy
Cold hearted, ignorant society

The igniter for my burning soul
Push me further and I will lose control
How shall I rise, if chains keep a hold of me?
How shall I rise
When all hope dies?

Vaster and brighter
Faster and wider
Farther and higher
Another spark will set this world on fire

Did we really stop trying?
I can feel the weight on my back
And all the puppets keep dancing
On their strings (Just smiling)

Facing a well known enemy
Cold blooded, crumbling society

The igniter for my burning soul
Another spark and I will lose control
How shall I rise, if chains keep a hold of me?
How shall I rise
When all hope dies?

I take a step
Into this plastic place
Crawl along its broken spine
This world's not mine

Nothing's gonna be the same again
Nothing's gonna be the same again

The pressure is rising
Time's running out
Reflect your choices
Or everything will be torn apart

Nothing's gonna be the same again
Nothing's gonna be the same again

Nothing's gonna be the same again
(Nothing's gonna be the same again!)
