Love Like This

Oceans

Make up, break up, hearts hurt
I know
Found love, lost love, waves come
And go, mmh

I just can't explain how you got me up all night
Thinking of us all night, all night, all night
I just can't escape how you're running through my mind
I wanna give you my time, my time, my time, eh

No one said we're supposed to fall in
Love like this, love like this
No one said we're supposed to break our
Hearts like this, hearts like this

It started with a kiss, but it was hit and miss
I think about you every time I close my eyes, oh yeah
No one said we're supposed to fall in
Love like this, love like this

Times flies, truth lies, scars heal
I know, I know, I know
You'll try, you'll cry, you'll rise
I hope, I hope

I just can't explain how you got me up all night
Thinking of us all night, all night, all night
I just can't escape how you're running through my mind
I wanna give you my time, my time, my time, eh
No one said we're supposed to fall in
Love like this, love like this
No one said we're supposed to break our
Hearts like this, hearts like this

It started with a kiss, but it was hit and miss
