

Shark Tooth

Oceans

This is our symphony
We're about to sow the seed
Come take heart and sing with me
This is our symphony
This is our symphony

Sometimes a feel
Like a loaded gun
Throw me in the sea
And I sink deep
Like a shark tooth

I'm done bending
And pretending
We are breaking
We're done taking

We sow hope
In fields of despair
In our ocean
We drown your fear

We fight the sickness
We rise to speak
We stand beside the weak
We fight the sickness
We rise to speak
Because down in the abyss
We all are freaks

This is our symphony

We're sick to the core
Of your insolent schemes
We'll be silent no more
Because we are not machines

We sow hope
In fields of despair
In our ocean
We drown your fear

We fight the sickness
We rise to speak
We stand beside the weak
We fight the sickness
We rise to speak
Because down in the abyss
We all are freaks

This is our symphony
We're about to sow the seed
Come take heart and sing with me
This is our symphony

Sometimes I feel
Like the only one

Who is never alright
The doubts always grow back
Like a shark tooth
Like a shark tooth
Like a shark tooth

We fight the sickness
We rise to speak
We stand beside the weak
We fight the sickness
We rise to speak
Because down in the abyss
We all are freaks
