

# SPIT

## Oceans

Turn this shit up loud  
'Cause I can't stand your talk  
You almost broke me apart  
Now I will rip out your heart  
Ey, ey

I will rip out your heart

Spit  
Spit

Ey, ey  
I spit my hate  
Into your face  
I turn your fate  
You fucking liar  
I will set your world on fire  
Ey, ey

Let's keep it straight  
You're a disgrace  
All bark, no bite  
You're two-faced  
I will spit on your grave  
After I hang you higher

Ey, get the fuck out of my face  
All you wanted was a piece of me, you snake  
Make money off this stupid symphony  
I hate this fucking industry

You almost broke me apart  
Now I will rip out your heart  
Bitch

I will rip out your heart

Spit  
Spit

Ey, ey  
I spit my hate  
Into your face  
I turn your fate  
You fucking liar  
I will set your world on fire

Ey, all you care for is money and power  
You let it devour everything  
"I will make you famous"  
You are so fucking shameless

Turn this shit up loud  
'Cause I can't stand your talk  
You almost broke me apart  
Now I will rip out your heart

Liar  
Liar  
Liar  
You fucking liar
