

# Truth Served Force Fed

Oceans

How did it come so far  
This world is ripped apart  
My body's shaking cause it's  
So cold, so cold  
We tried to reach the stars  
Remember who you are  
Feels like I'm breaking cause it's  
So cold, so cold  
This is  
A bullet to the head  
A letter to the dead  
So cold, so cold  
This is  
A rope around my neck  
Truth served force fed  
So cold, so cold

We need this earth  
But this earth doesn't need us  
We build machines  
With a core more warm than our fellow humans' hearts

What a nice cruel world  
We've made for us  
With a big fat smile  
We turn to dust

Get off the ship, we're going down  
Get off the ship, we're going

If this is all that's left to see  
Hand me the knife  
Cause I'd rather be blind  
Than watch you take my life

The captain has left the ship  
We're going down

How did it come so far  
This world is ripped apart  
My body's shaking cause it's  
So cold, so cold  
We tried to reach the stars  
Remember who you are  
Feels like I'm breaking cause it's  
So cold, so cold  
This is  
A bullet to the head  
A letter to the dead  
So cold, so cold  
This is  
A rope around my neck  
Truth served force fed  
So cold, so cold

Get off the ship, we're going down  
Get off the ship, we're going

If you repeat a lie often enough  
It becomes the truth  
If you repeat a lie often enough  
It becomes religion

It's not a question of belief  
It's a matter of survival

Get off the ship, we're going down  
The ocean will reclaim its crown  
Get off the ship, we're going down  
Get off the ship, we're going down  
The ocean will reclaim its crown  
Get off the ship, we're going down

How did it come so far  
This world is ripped apart  
My body's shaking cause it's  
So cold, so cold  
We tried to reach the stars  
Remember who you are  
Feels like I'm breaking cause it's  
So cold, so cold  
This is  
A bullet to the head  
A letter to the dead  
So cold, so cold  
This is  
A rope around my neck  
Truth served force fed  
So cold, so cold
