

Be Around

Ocie Elliott

When the angels up and leave you cold
Slamming all your doors
I'll be around
On a frozen night, lights carved in ice
I'll be around

And through the heavy times that call
When you're about to ball
I'll be around
Bottom of the wine, love is hard to find
I'll be around

Dark days come and aches will pound
Highs will hum then bring you down
When you're done, I'll be around

When the clouds dissipate to blue
Dissolve over you
I'll be around
If you find a doubt worth talking about
I'll be around

When the whole world appears a lie
Petty in your eyes
I'll be around
Everyone has gone and you're still rambling on
I'll be around

Months will lull and weeks will drown
Hours will be full then void of sound
As it goes, I'll be around

Any moat you row your boat, I will float
Any shame you need to name, I will tame

I'll be around
I'll be around
