

I Got You, Honey

Ocie Elliott

I have no record, of brighter days
Your light is on me, I can say
I have no parts, I have no lines
But I have you and you have me, honey

Water's wet and light is light
Got upset and now I'm doing fine
When I come home, when I calm down
Well I have you, and you have me, honey

Summer breaks and winter storms
And I don't mind getting on
'Cause as we're going, living, glad to be
Well I'll have you, and you'll have me, honey
