

## Stay, Love

Ocie Elliott

Wakin' up in this home again  
Not knowin' where we reside  
We were fine yesterday and then  
We got drunk upon our pride

But I need you now to know I love you  
And I need you now to know I want to  
And I hope you're seein' that I'd like ya to be  
In my arms and heart, still be free

Love, it is just like a fire  
It'll begin from a spark  
But if it is not tended to  
It'll leave you in the dark

But I need you now to know I love you  
And I need you now to know I want to  
And I hope that you're seein' that I'd like ya to be  
In my arms and heart, still be free

But I need you now to know I love you  
And I need you now to know I want to  
And I hope that you're seein' that I'd like ya to be  
In my arms and heart, still be free
