

Wait For You

Ocie Elliott

Going away for a time
And I'm not following where you've gone
I'm told we'll be fine
You never know with a distance this long

But, I'm gonna wait for you
Yes, I'm gonna wait for you

I've been missing you a lot
I've been working the day right through
Every time that I stop
I rediscover a place without you

Yes, I'm gonna wait for you
Yes, I'm gonna wait for you

Yes, this is hard
But you can't stop a real love this way
On the boulevard
Impatient, awaiting that last day
When you come back
Come back

Yes, I'm gonna wait for you
Yes, I'm gonna wait for you
