

Don't Cry

Octavian

Elevated, Elevated Prod'
Essie Gang, Essie
Elev- Elevated Prod'
Let's go

My tune came on and you banged it out, banged it out, banged it out
Don't lie, banged it out, don't try
Boys here never switch side
Don't worry 'bout me, fam, I've been the guy
That's why your girl came and I beat her out, beat her out, don't cry
Only got the real niggas on sight
Couple niggas that don't like

Fuck them, I don't chat shit or mislead, never
I took it pass and chose degrees
Yeah, I disbelief I turned 2D money into 3D, stack
Got time for my sched, yeah
Way too fast for a delay, too fast
Know that she has to come correct, I done lost her when I peak at it
Your mom said, look at him stacking
While you're fully mapping when you could've been packing
In your dreams you can catch him
'Cause he's so close I already overlapped him, two time, three times
Splash with the flow, Jon with the Snow, Zeus with the lightning
I don't chat to my label, I just get my check in writing songs
When I walk 'round I take all of that lean, no carbs, no fear
But you can never stick it on me, no
The pressure, the pressure
But I turned it around, had too flick that script
Move quick, move quick, move quick
Saw that money and I dip, saw that money and I dip
Deep down, don't watch the receipt coming out of the till
Yeah, I grab that bill
Don't watch the receipt coming out of the till, that till
Yeah, I grab that bill
E probably like D double E still
Man, I grab that bill
Money dance like I'm too free
Five bills in the shades and I can't even see, okay
I'm leaning, I'm leaning
Them man alert, man, I can't even see, okay
I'm preeing, I'm preeing, okay
Essie Gang, we're in a distant league
Can't test me and my team
18 and my thing go

And you heard my tune and I know that you
Banged it out, banged it out, banged it out, don't lie
Banged it, banged it
Elevated always get it right
Don't worry 'bout me, fam, I've been the guy
That's why your girl came and I beat her out, beat her out, don't cry
Only got my real niggas on sight
Couple niggas I don't, don't like
Ya, ya, don't like
