

Tongue Tied

October Fall

Your head lays down upon this car
But I hate you for what you are
And what I have become
Fire burns within your lungs
So light yourself another smoke
And recreate what you call "home"
Make me feel like you care, moonlight shines
Down on your hair
And did I let you know how beautiful you look tonight
Your smile lights the sky
And all I ask is you save me your last dance...

Tick tock we dance to the beat
The clock spins, you spin into me
Feel my hands, I'm not shaking

Start flames to burn out
Start thinking out loud
Give me an ending
Then we'll stop pretending
If we stop pretending, we know where we're heading
'cause I said stop but I'm still spinning
They've said I've lost but I'm still winning
Burn quick and stand still
Speak slow to get through these words I couldn't
Say to you
I crack concrete falling down for you

Tick tock we dance to the beat
The clock spins as you spin into me
Feel my hands, I'm not shaking

Feel so t-t-t-tongue tied
I'm not shaking
