Chaotic, my heart is off time

When the stars fall and reach my heart
I don't know what I should you
I can feel it Baby
You are my storm
You embrace all of me, I want all of you
Nothing less than everything
Baby, baby, baby

Our attraction is unstoppable
Mysterious secrets endlessly spread out
The universe is filled with light
I'm filled with you, I'll go crazy
Between us, there is a blooming light
Our hearts are headed toward each other
Until I am in your arms
Cause I'm about to lose control

Chaotic my heart is off time
I'm trapped in a maze all night
Going psychotic, I want you
I'm falling, Baby chaotic
Chaotic there's no coming out
The countless lights dizzily wrapping around me
Going psychotic, when I close my eyes
I can see your heart, baby chaotic

We're getting closer
Gravity, we're pulling at each other
In my heart Baby, you lit a fire
I need you right here
Cause you kissing oh kiss the best

Our attraction is unstoppable
Mysterious secrets endlessly spread out
The universe is filled with light
I'm filled with you, I'll go crazy
Between us, there is a blooming light

Our hearts are headed toward each other
Until I am in your arms

Running through time, following that sound
Following that light, whisper to me
Your eyes are on my heart
The melody passes by
It pulls me to you
And we will be true
