Fine By Myself

Odeal

Ooh, ooh
Ooh, ooh
('Fore you came, I didn't need nobody else)
(All the parts to my world were solid)

Keeping my distance is vital
'Cause keeping you 'round weren't so good for my health, baby
Guess it's been a while
But keeping you 'round weren't so good for my health

Can't look you in the eyes no more
'Cause baby, I might get drawn back in your vortex
Can't stay in contact
Can't look you in your eyes no more
'Cause baby I might get drawn

Fine by myself (By myself)
'Fore you came, I didn't need nobody
All the parts to my world were solid
Well, they were till you broke them
I'm fine by myself (By myself)
'Fore you came, I didn't need nobody
All the parts to my world were solid
Now the world is all broken up

Back to civilization
I been scared, runnin' away from everything
Maybe I'll wake up some day
Stash of weed in my basement
Over time, it got me complacent
Took a chance to sober up with no pain

But I can't look you in the eyes no more
'Cause baby, I might get drawn back in your vortex
Can't stay in contact
Can't look you in your eyes no more
'Cause baby I might get drawn

Fine by myself (By myself)
'Fore you came, I didn't need nobody
All the parts to my world were solid
Well, they were till you broke them
I'm fine by myself (By myself)
'Fore you came, I didn't need nobody
All the parts to my world were solid
Now the world is all broken up

Broken up
'Cause I lost focus
'Cause I got broken
Walls were, solid
Broken, 'cause I lost focus
Broken, walls were, solid
