

Intro (Landmine)

Odeal

Even though
I got hella options, I don't dig them
Girl they not you

You're
Worried about the company I keep now
When I'm with you (ohh)

I'm protecting you from the world
But I just have the feeling we are so tired, yea
So you was my peace how I thought, but
Maybe I been wrong this whole time

Cause angels shouldn't make me feel that [?]
Stuck in a garden of landmines
Dance around you just to flatline, mine
