

## Karma

Odeal

Mm, you're famous now, I guess (Ah, ah)  
I just tried to stay sober most of the night (Ah, ah, ah)  
Over a week ago (Ah, ah, ah)

Mm, it's the way you're soaking, girl  
I'm tryna find out what your pulse is  
I'll drink your water like it's Volvic, O swims  
Babe, I'll stroke backwards  
Open, in your throat I let my tongue free  
Under your spell, I see palm trees  
Girl, no pressure, there's no tightrope, just high hopes, oh  
You say mi nuh deserve am?  
Understood, girl, back your talk up  
What's your vamp really on?  
Heard you talk slick on the Dom Pérignon

Yeah, yeah, yeah, yeah, yeah  
You're the love of my life  
Mm, ayy

Spiritual like Dalai Lama  
Struggle come but trust God  
What's goes around comes around  
If I fuck you good, you gon' fuck me good  
That's karma  
Palm trees, piña colada  
West Indian rum, that's a good starter  
Have you in my thoughts more time 'cause it's you  
I'm just straight with it  
Uh, is you ok with it?

You ride up on it like it's nothing brand new  
Innocent, but you do it so good  
Hair good, skin tight, uh, uh  
Your face right, mm-mm, body-ody on  
Oou, girl, I want it, want it all in my face  
You use your mouth even if there's not much to say  
Cat's got my tongue, Kit Kat's my fave  
High up inna di tree, need your kitty cat saved  
Heart's cooler than ice tray  
Water build up in your eyes as you vibrate  
You're shakin' up the bedframe with your thick frame  
Get up in this frame quick, can't forget this day  
Love when you get spontaneous  
King size bed turn dinner table  
You ain't with domestics 'cause you untamed, yeah  
Uh, do me one favour
