

## Last Thing

Odeal

I got somethin' that got you itchin'  
The last that I won't I give you, it is  
The last thing that I won't give you is love, love, love, love,  
love, love

I got that somethin' that you've been missin'  
I got somethin' that got you itchin'  
The last that I won't I give you, it is  
The last thing that I won't give you is love, love, love, love,  
love, love

Speak my mind, oh (Oh)  
Keep it hundred no need to lie, oh (Oh)  
You be the reason why I never drive, oh  
Touch up my handbrakes at the red light (Ah, ah, ah)  
Fit to get the title (Ah)  
I beat it up in the box Tyson (Tyson)  
Left hook when I'm inside it  
Uppercut when you wan' ride it  
After I rock on your bed, I caress you hair  
I don't see your bonnet on your head  
Where's your overnight bag?

I got somethin' that got you itchin'  
The last that I won't I give you, it is  
The last thing that I won't give you is love, love, love, love,  
love, love  
I got that somethin' that you've been missin'  
I got somethin' that got you itchin'  
The last that I won't I give you, it is  
The last thing that I won't give you is love, love, love, love,  
love, love

Ooh-ooh, ooh-ooh, ooh  
Plenty mi wan' do when I see you later  
French tips and a view as the sun ah beat down on you, ooh (You  
)  
I spoil you from the head down but that ain't enough  
Devoted affection that's all you want  
When you're not present I know it's cause

I got somethin' that got you itchin'  
The last that I won't I give you, it is  
The last thing that I won't give you is love, love, love, love,  
love, love  
I got that somethin' that you've been missin'  
I got somethin' that got you itchin'  
The last that I won't I give you, it is  
The last thing that I won't give you is love, love, love, love,

love, love
