

Miami

Odeal

Slight intellect
Shy with a vibe
But I'm sly into it
You blessed the worst days
Purpose what you bring
Oh no, oh no, no

Stroke you like violin
Sweet when you sing
Harmonics when I'm in
I took my time with you
I wasn't afraid to learn

Hold me
Take me
Never release me
Baby, hold me
Squeeze me
Never release me
Constant running towards that liquor
You wanna heal, you gotta feel quicker

Hotel lobby
Recognised you from your Instagram, I'll admit
That's where you caught me, you see
At the private party
You and your girls in my apartment
We stayed friends in Miami
Till we made love in Argentina

We stayed friends in Miami
But we made love in Argentina

Hold me
Take me
Never release me
Baby, hold me
Squeeze me
Never release me
Constant running towards that liquor
You wanna heal, you gotta feel quicker

This don't gotta be the real thing
As long as it feels like it
Thinkin' 'bout you when I landed in LA
Somethin' that you ignited

And I don't wanna go home
I don't want this night to end
'Cause I'm kinda scared
I might never see your eyes again
So if I gotta bottle service out of my bread
Tryna buy more time
Time that we can spend

Booked a flight while I'm faded
You said, "Yes"

Baby, you said, "Yes"
You said, "Yes"

We stayed friends in Miami
But we made love in Argentina
We stayed friends in Miami
But we made love in Argentina

Hold me
Take me
Never release me
Baby, hold me
Squeeze me
Never release me
Constant running towards that liquor
You wanna heal, you gotta feel quicker
