

## More Life

Odeal

That's why me pray for more life  
For mi self  
More life for the gang  
More life yeah me need more time  
Ain't no stepping till we're in it to the top  
Yeah we need more life  
More life for mi self  
More life for the gang  
(More life) If God bless me  
No man who can curse me

Yeah me need more time for the greatness  
Me nah give a damn fly bout no eediat  
Need my riches like now  
Heard the good die young  
Pray to God me ain't part of the sequence  
Nah nah nah  
Tell me how me have the right to life  
When the killing of my peoples being amplified  
Take a good look at the USA  
Another yute is getting shot again  
If you take your eyes of the dough you see the bread crumbs  
That's what poppy did and now he in for 2 summers  
Thank God he buss case could've got longer  
If only o could single handedly stop world hunger, I would  
I promise  
How can we win when we all want the gold chalice  
Bring our brothers and sisters down when don't have it  
It's the wrong habit  
What happened to the manners and the love

That's why me pray for more life  
For mi self  
More life for the gang  
More life yeah me need more time  
Ain't no stepping till we're headed to the top  
Yeah we need (more life)  
More life for mi self  
More life for the gang  
(More life) If God bless me  
No man who can curse me

If only the law was to love and not to hate  
The world would be a better place  
The leaders at the tops where we start  
How we delegate power wrongly's the most part  
How do we watch and neglect  
As today gets worse than yesterday  
Like share and scroll away  
I pray you listen to my prayers  
Freedoms within the mind but I won't feel free until my last Amen  
Felt locked up times in life but shackles can see me after my judgement  
I pray that my last amen doesn't mean nothing the day my life's taken  
And I ain't perfect don't get it mistaken

That's why me pray for more life  
For mi self

More life for the gang  
More life yeah me need more time  
Ain't no stepping till we're headed to the top  
Yeah we need  
More life for mi self  
More life for the gang  
(More life) If God bless me, no man who can curse me
