

On The Ground

Odeal

Kissing on your navel
Lay you down and love you on the table
We won't fall less but
We far from stable
Better on the ground

You should let your guard down
Try letting what's inside out
I know that you've been through hell and back
No running fast
If it's me you're running past
Just stop and turn around

In the car running down south
Start to keep these windows down
Cause it's hard to breathe when both of us
Choked up ready talk
Just roll up yeah we should slow it down

(But I still go back to)

Kissing on your navel
Lay you down and love you on the table
We won't fall less But
We far from stable
Better on the ground

Listen to your problems every week
Started blocking out what you're saying now
Love's not a sport for the weak
But you threw me the border that touchdown
All my achievements you done down
Go 'head and say what you mean
Started being petty being mean

(But I still go back to)

Kissing on your navel
Lay you down and love you on the table
We won't fall less But
We far from stable
Better on the ground

Waking up the neighbors
Acting like there's no new us in favor
Knocks on the door I
Pray Lord's set to save us
Keep us on the ground

And I ain't gotta problem falling deeper
I ain't got a problem falling deep in love
