

## Outside

Odeal

I said I wouldn't fall again, but here we are (Shit, yeah)  
I won't let her sweep my feet, I don't need scars  
No, I won't believe 'cause nothing's what it seems  
I've been here before  
As long as she knows I want fair and nothing more, mm, yeah

Push you to the side, I won't  
Prefer to keep you on my side and hope  
You try to understand that I love to go back there  
'Cause what we had goes way back  
'Til then, I'll stay

Outside, outside  
I'll be here waiting for you, I'll be here waiting for you  
When you're outside, I'll slide  
I'll be here waiting for you, trading places for you, bae

Many around, I've been  
Keeping you close, I've been  
Weighing my options, you know the process  
You say I ain't obsessed with you  
Talkin' all the nonsense, girl  
'Cause the way that we made love don't feel like nothing else  
And that's the downside, I've been thinkin' 'bout you while I'm  
outside  
You be bringing out the other side of me  
I just hope that it's me that you're thinkin' 'bout, just me  
Selfish indeed  
I don't cater to you as long as you

Tell me you need some walks  
Tell me you're the only one that could ever come close  
The others know you're mine for sure  
But just know that we could never be more because I'm

Outside, outside (Yeah, yeah)  
I'll be waiting for you, I'll be waiting for you (You)  
When you're outside, I'll slide (Yeah, yeah)  
I'll be waiting for you, trading places for you  
Outside, outside  
Outside, outside  
I'll be here waiting for you (Waiting for you), I'll be here wa  
iting for you (Waiting for you)  
When you're outside, I'll slide  
I'll be here waiting for you, trading places for you, baby
