

Guess you gotta go
I gotta process all these problems of my own
I gotta heal from your trauma (Trust me)
I need a break from your drama (Trust me)
Girl, trust me
What we had lost, it's meaning a long time ago
You're passive aggressive, I'm conceited
Easy to see there's chemistry
Nobody knows how toxic
Our nuclear waste is toxic
So when you ask me why it's over, I'll just tell you that your

Problem, no dey finish
Wahala, you no go kill me
To japa, e no too easy
But Gelato smoke and the whiskey
Go cool my head, put me at ease
Wish you luck with the tings after
Shayo first, we go think after

We gon' be just fine
(Woah, woah, woah, woah, woah, woah)
I'm afraid to let you know
(Woah, woah, woah, woah, woah, woah)
I made plans to let you go
(Woah, woah, woah, woah, woah, woah)
And we best on our own
Only one way to know
I think I need some time alone
(Woah, woah, woah, woah, woah, woah)
Mm-hmm (Woah, ooh-woah)

I gotta put myself first, selfish, I put my hands up
Self-love, ain't been myself in so long
It's 'cause I dived in head first then let my body follow
From the first day I met you
I thought I'd level up, trust me, I fell off (I fell off)
And you're lying to yourself if you say I didn't do enough (Do enough)
I ain't have no regrets but the truth is I did too much
Need to focus on myself (Focus on me)

Problem, no dey finish
Wahala, you no go kill me
To japa, e no too easy
But Gelato smoke and the whiskey
Go cool my head, put me at ease
Wish you luck with the tings after
