Odeal

Check the skip on arrival, mm  
Coconut oil up on them trees  
I feel like I might give a reason  
Girl, you need a reason  
To sit by, sip your Lipton, and repeat  
Me, I feel like I'm in [?]  
When I come find you

When I, when I, [?], Sondela-ela  
Your body's so slender  
When I, when I, [?], surrender your love  
I'm a joke and a pretender

Calling you gorgeous is an understatement  
[?] you gorgeous, but you're cold and sexy  
You better show them you're cold and sexy, go on away  
Girl you best went unavailable  
Tell your ex he made a poor decision  
Let your friends know you're rollin' with me  
You already got your mind made up

When I, when I, [?], Sondela-ela  
Your body's so slender  
When I, when I, [?], surrender your love  
I'm a joke and a pretender
