

You're Stuck

Odeal

Cover my eyes
Best out of sight
But I ain't blind
Oh no, no, no, no
Girl live your life
Girl live your life
Not running you down
No baby

When you realize
I was always first place baby
No duplicate
Can't copy-and-paste me, babe
Search for the same things in all the wrong places
Still stuck in your ways
Then cry and complain

You're stuck
Giving it all that you got
Searching for what
You should let go of your heart
You're stuck
Giving it all that you got
Searching for what
You should let go of your heart

Just the other day
Try fly straight and turn the other page
What you did truly caught me unaware
You was with him in the middle of the dance
Heartbreak hurts and I surely got a taste
Student of the game but baby that's not how you play it
Thought you'd do me proud and you'd surely use your head
And that's what you do instead
No, no, no

When you realize
I was always first place baby
No duplicate
Can't copy-and-paste me, babe
Search for the same things in all the wrong places
Still stuck in your ways
Then cry and complain

You're stuck
Giving it all that you got
Searching for what
You should let go of your heart
You're stuck
Giving it all that you got
Searching for what
You should let go of your heart

I tell you need to calm yourself
God ain't give up after making you
It ain't nothing to find someone else
So I'm 'a let you know

It ain't nothing to let you go
But if I did decide to give you a try
I wouldn't hold back baby
You'd realize the cold truth
That you'd be stuck on me too

When you realize
I was always first place baby
No duplicate can't copy-and-paste me, babe
Search for the same things in all the wrong places
Still stuck in your ways
Then cry and complain

You're stuck
Giving it all that you got
Searching for what
You should let go of your heart
You're stuck
Giving it all that you got
Searching for what
You should let go of your heart
