

## Gather Round

Odessa

Come on and gather 'round  
The underdogs are freakin' out  
Do you see what I see as we all fall down?  
Pick up the microphone  
And tell the world what you know  
In color or black and white  
Just make it sound right

Do you want to have a voice?  
Do you want to make noise?  
Join in the deafening  
Cacophony of sound

You're building a strong wall  
You're calling all the troops to arms  
You dream of it in the night  
And cry for daylight  
Darkness is closing in  
The battle will soon begin  
They wait out in the distance  
Tension rises

Do you want to have a voice?  
Do you want to make noise?  
Join in the deafening  
Cacophony of sound

Come on and gather round  
The underdogs are freakin' out  
Do you see what I see as we all fall down?  
Come on and gather 'round  
The enemy is laughing out  
Your hero rises from the clouds  
As it all falls down
