

# Better Now

ODESZA

I've been trying to find it  
Been living on my mind yeah  
What should I leave behind me

Looking for something  
Don't wanna live for nothing  
I could settle right now or I could jump somehow

One route, like there is no way out  
They never teach you to reach the stars  
No doubt, I'm feeling better now  
Gave it a try, now enjoying the ride

So what if I fall?  
Better that I try instead of nothing at all  
Yeah I can say it's my fault  
I really don't mind, at least I gave it a go

So what if I fall?  
Better that I try instead of nothing at all  
Yeah I can say it's my fault  
I really don't mind, at least I gave it a go

I've been trying to fix it  
And find out what's been missing  
I want to live a life that is worth living

One route, like there is no way out  
They never teach you to reach the stars  
No doubt, I'm feeling better now  
Gave it a try, now enjoying the ride

So what if I fall?  
Better that I try instead of nothing at all  
Yeah I can say it's my fault  
I really don't mind, at least I gave it a go

So what if I fall?  
Better that I try instead of nothing at all  
Yeah I can say it's my fault  
I really don't mind, at least I gave it a go

At least I gave it a go  
I gave it a go

I know it gets better and better  
(Keeps getting better)  
I don't think it's all 'bout the weather

So what if I fall?  
Better that I try instead of nothing at all  
Yeah I can say it's my fault  
I really don't mind, at least I gave it a go

So what if I fall?  
Better that I try instead of nothing at all  
Yeah I can say it's my fault

I really don't mind, at least I gave it a go

So what if I fall?

Better that I try instead of nothing at all

Yeah I can say it's my fault

I really don't mind, at least I gave it a go

(I gave it a go)

So what if I fall?

Better that I try instead of nothing at all (I try)

Yeah I can say it's my fault

I really don't mind, at least I gave it a go

I gave it a go

I gave it a go
