Forgive Me

ODESZA

(Please forgive me)
(Please forgive me)

Please forgive me, for the mess I made
Please forgive me, promise I'll change
Please forgive me, I can be a kid sometimes but
You know that you're the one I love deep inside

I promise you I didn't do you wrong
I just felt like you didn't notice me for long
So I went around and acted like
I had somebody new with you on my mind

Give me a chance, baby
Give me a chance, baby
Give me a chance, baby
Find it in your heart
Give me a chance
Give me a chance
Give me a chance
Find it in your heart

Please forgive me, I did you wrong
Please forgive me, I wrote this song
So you could give me one more chance
I made you jealous, baby, you didn't come back

I promise you I didn't mean to do you wrong
I just felt like you didn't notice me for long
So I went around and acted like
I had somebody new with you on my mind

Give me a chance, baby
Give me a chance, baby
Give me a chance, baby
Find it your heart
Give me a chance
Give me a chance
Give me a chance
Find it in your heart
