

# DESIRE

Odetari

('Tari get over here)

I love her every move (So you can hand it to me)  
Girl, tell the truth (So let's go slide and move)  
All I want is you, you-you-you-you, y-y-you  
So much distraction in this room

L-l-lights, f-f-flashes, c-c-cameras, a-active  
They just tryna strike in at me  
'Cause they don't want my status  
Don't let it happen, a-and it's all about reactions, girl  
They tryna hack in here but they can't come into my world

P-potion secrets activated

I love her every move (So you can hand it to me)  
Girl, tell the truth (So let's go slide and move)  
All I want is you, you-you-you-you, y-y-you

We're both here laying on the crowd again  
The cycle never breaks, it never ends  
We're both here laying on the crowd again
