

# HOTEL NUISANCE

Odetari

If you can't take it, you can leave when you want  
I'm not chasin', I got beasts in the front  
Don't you drive me crazy, you fucking mean when you drunk  
I'm in homeostasis, I'm about to lean with them drugs  
I'll throw some cheese on her butt, uh, peas are for lunch, yeah  
She's tryna fuck, huh, me not so much  
You count to three, then I bust  
I brush your teeth when you're done  
Now she sleep and she weak, got her knees buckled up

I spent fuckin' on the searchin' in the night, that shit light  
Just to lay down on the couch, go to sleep, nighty night  
I got hiccups in my Uber, I look up and she lice  
"Are you good? You okay?" nah, I don't feel alright  
Huh, might pop another pill just to know if this shit real  
If you said that I can't buy it, then I'm buyin' it for real  
If she kiss, she's just a child, then she bitin' in the steel  
I got gold on my teeth, I got gold on my wheels

Got the hotel ringing at my doorbell (Again, again)  
I got the hotel ringing at my doorbell (Again, again)

If you can't take it, you can leave when you want  
I'm not chasin', I got beasts in the front  
Don't you drive me crazy, you fucking mean when you drunk
