

INVITE ONLY

Odetari

Ha!

Say goodbye

Say goodbye (bye-bye)

Say goodbye (bye-bye)

You can't go where I go

You can't go where I go

You can't go where I go

You can't go where I go

Yeah you know you can't stay

Baby just get out my place

I know they locked up th bank

Cause I know the money gon' fade

I been to war with no range

Like a hundred, I'm never gon' change

I got a purple range for my pain

I put a pretty girl on a plane

Like what is you sayin'

I put the diamonds all up on the watch

Check out my rolley, it never tick-tock

Better not touch it, you end up on Fox

I told her drink the bottle not a shot

I lead the war they just cut a head off

I walk around with a whole 'lotta knots

Leave in the Urus, pull out the lot

You know that I do this, I don't gotta talk

Ha!

Say goodbye

Say goodbye (bye-bye)

Say goodbye (bye-bye)

You can't go where I go

You can't go where I go

You can't go where I go

You can't go where I go
