

## LOVE POTION

Odetari

There's no use in crying  
We're all damned  
So just let it go and grab my hand

We can forget it all  
If you take up my dance  
Just let it all go

Nobody has to know  
No one's confrontin' you baby  
Just let it all go

She fell in love with drugs  
And this liquor's my potion  
So let's just have fun

Fun, fun, fun, fun, fun, fun, fun, fun

I know all the shit that's on your plate right now is a lot to  
hold

Let's just put it back under the table  
There's no use in crying  
We're all damned  
So just let it go and grab my hand

We can forget it all  
If you take up my dance  
Just let it all go

Nobody has to know  
No one's confronting' you baby  
Just let it all go

She fell in love with drugs  
And this liquor's my potion  
So let's just have fun

Fun, fun, fun, fun, fun, fun, fun, fun

She fell in love with drugs  
And this liquor's my potion  
So let's just have fun
