

SELF TAUGHT

Odetari

I didn't fall off, I just fell back
Had to take a break, had to get on track (Yeah)
Follow the formula, I got it hacked
Now I'm off the labels, can't say where it's at

Oh, you're annoying me
With all your needs
Oh, you're annoying me
With all your needs

Bounce back, you can do that
All the sounds makin' new cash
You're not a fan, you're a rude ass
You wanna switch up? Then go and do that
Made a mistake, so every day, I pray
I know people don't forget, but at least I'm saved
I won't ever regret all the things that made
Built and destroyed it, that's how I create

If you watched me, don't let 'em top me
I won't ever let me fail, I'm the one to top me
Every since I got some money, now they say I'm cocky
Bitches didn't want me dead, now they wanna slap me
Now slidin' in that ho like I'm playin' hockey
And I met a bad bitch, gon' make her my wifey
When I said how bad I wanted, they said they won't like me
Now they copyin' my swag, tryna make the type beats

I didn't fall off, I just fell back
Had to take a break, had to get on track (Yeah)
Follow the formula, I got it hacked
Now I'm off the labels, can't say where it's at

Oh, you're annoying me
With all your needs
Oh, you're annoying me
With all your needs

You don't know what it come when this shit take your soul
Lookin' left and right, I'm in the middle of the road
Got me askin' if my actions really all my own
Wonder what my tombstone will say about my soul

I didn't fall off, I just fell back
Had to take a break, had to get on track (Yeah)
Follow the formula, I got it hacked
Now I'm off the labels, can't say where it's at

Oh, you're annoying me
With all your needs
Oh, you're annoying me
With all your needs
