

# Collide

Odette

I'm wounded  
I'm meeker than if I was strong  
I'm falling in and out of love  
But you see  
I'm movin' so slow

And if I were to break in two  
And these words that I wrote for you  
Escape from me like embers  
Dancing round a fire  
That is slowly burning out

I would tell you to  
Hold on, to wait  
I'd tell you to  
Slow down, to stay

Just the simplest touch leaves a burn on me  
The simplest touch leaves a burn on me

I'd tell you to  
Hold on, to wait  
I'd tell you to  
Slow down, to stay

Just the simplest touch leaves a burn on me  
The simplest touch leaves a burn on me

I'm losing  
Can barely even hold my own  
You're blind and you won't hear no more  
Oh this rage is insatiable

And if you were to up the heat  
Throw the fire inside of me  
I'm like the sun that warms the ocean  
The moment that the night falls  
I will leave you cold and empty

Hold on, wait  
Oh won't you slow down and stay  
Just the simplest touch leaves a burn on me  
The simplest touch leaves a burn on me

Oh, don't walk away  
Oh won't you slow down and stay  
Oh I can't get these burns off me  
Oh no I can't get these burns off me, oh

Set alight my skin  
And I'll melt like ice  
(Hold onto me, hold onto me)  
I could drift within  
Waves of your embrace  
(Hold onto me, hold onto me)

Oh we've got no space between us

It's just you and I in flames  
And we're burning on the inside  
But outside we seem the same

There's no clarity  
When our worlds collide  
(Hold onto me, hold onto me)

Hold onto me, hold onto me  
Hold onto me, hold onto me
