

# You

Odette

Filled to the brim with uncertainty  
I work to console with myself  
I know that my thought really need you  
But right now they need no one else

You blow my darling, you blow  
And as a light reflects onto you  
I wonder how will I know  
If I spend all my days with you  
I could spend all my days with you, ooh  
(For you, for you) Ooh

Hypnotized by the afterglow  
I focus my eyes on a sea below  
Baby I'm thinking a bit too much  
About the things that are out of my control

And sometimes it's so hard  
To know what is and isn't true  
But I feel like I know  
I could spend all my days with you  
Can I spend all my days with you
