

## No Doubt

Odie Leigh

I'm not too used to anyone being so sweet on me  
I'm not too used to all these words being used seriously  
I wanna know if this is something I should learn to let go  
Wondering if you're loving me, if you're loving me

I'm not too used to being smiled at when I walk through a door  
I'm way too good at saying sorry when I should've asked for more  
I always wanted to be someone else but something else keeps holding on to part of me, a part of me

And if you want me to be there, then I'll be around  
If you wanted to have me, you'd have me no doubt  
If you wanted to ask me, ask me right now

I'm not too good at being subtle or acting unimpressed  
I'm always worried that I come off too foolish self-obsessed  
But when I'm with you I'm just closer to, closer to  
So close to what I want to be, I wanna be

And if you want me to be there, then I'll be around  
If you wanted to have me, you'd have me no doubt  
If you wanted to ask me, ask me right now  
(Right now)

And I'm watching you move close to me  
And I feel my heart, my chest, my heat  
Not enough to have you wanting me  
I want everything, give me everything

And I'm watching you move close to me  
And I feel my heart, my chest, my heat  
Not enough to have you wanting me  
I want everything, give me everything

And I'm watching you move close to me  
(If you want me to be there)  
And I feel my heart, my chest, my heat  
(If you wanted to have me)  
Not enough to have you wanting me  
(If you wanted to ask me)  
I want everything, give me everything  
(Give me everything)
