

## Feels Like Forever

Of Mice & Men

Did you ever contemplate when all is lost you hesitate  
And nothing seems the same?  
Have you ever hit your face and touched disgrace,  
Decisions made, a picture with no words?

(Can you hold on? One more day?)

Say  
You're okay,  
I'm afraid that tomorrow is just too far  
Away.  
Fight the pain  
It just feels like forever is crashing down on me  
(Down on me, me, me)

They will fall, what's wrong with pain?  
It heals the soul and turn the page to face another day.  
Let me know that you will wait  
And I will pay for my mistakes and feel the sun again

(Can you hold on?)

Say  
You're okay,  
I'm afraid that tomorrow is just too far  
Away.  
Fight the pain  
It just feels like forever is crashing down on me

Don't break down.  
Time will heal oh.  
Just don't let go  
One day we shall ? Again

Say  
You're okay,  
I'm afraid that tomorrow is just too far  
Away.  
Fight the pain  
It just feels like forever (feels like forever)  
Forever  
Feels like forever is crashing down on me  
(Down on me, me, me)  
(Down on me!)
