

## Into The Sun

## Of Mice & Men

It called  
You answered  
And it took you far away from me, here

Turning another page  
Brings us closer to the ending  
You're further and further away  
And it feels just like

Like walking into the sun  
Like walking into the sun  
Every step I take without you  
Takes me further and further away  
And it feels just like  
Like walking into the sun

Hands pressed against the glass  
Of the infinite divide  
Feeling like I'm trapped  
On the other side

Turning another page  
Brings us closer to the ending  
You're further and further away  
And it feels just like

Like walking into the sun  
Like walking into the sun  
Every step I take without you  
Takes me further and further away  
And it feels just like  
Like walking into the sun
