Cut Me Open

Of Virtue

Lies like poison
Make me whole
Just to cut me open

The devil's in the details again
Loving you's like Russian roulette
Please
Can you release redirect this pain
You drag me down in flames
Never mean what you say
Got a tongue like a switchblade

Cut me open
Bleed me dry, you fed me all your
Lies like poison
Make me whole
Just to cut me open

Seven deadly sins bleeding through
Saw no evil 'til I met you
Please
Can you release redirect this pain
You drag me down in flames
Never mean what you say
Gotta deal with the devil you won't break

Cut me open
Bleed me dry you fed me all your
Lies like poison
Make me whole
Just to cut me open
You're heartless
And broken
Bleed me dry you fed me all your
Lies like poison
Make me whole
Just to cut me open

Blood red nails on the trigger finger
Don't read another line 'cause that's all she wrote
Razors in your hand I can see you shiver
Hope you see my face through the pistol smoke

You better hope that you don't fucking miss
'Cause I'll make you wish you did
Cut me open
Cut me open

Cut me open
Make me whole again

Cut me open
Bleed me dry, you fed me all your
Lies like poison
Make me whole
Just to cut me open
You're heartless

And broken
Bleed me dry, you fed me all your
Lies like poison
Make me whole
Just to cut me open
