

# Overthinking

Ofenbach

New day  
So happy we're not engaged  
When a heart breaks  
It knows how to love again

You're not in my vision  
Say goodbye to all of that  
Oh no I'll never be yours  
Liking all my pictures  
You can't leave me in the past  
No I won't miss you no more

Now you're overthinking  
Finding with your heart and your head  
Oh you're such a mess  
You're overthinking  
'Bout all the things that you never said  
You never said

Should've never let me go  
Should've never let me go  
Should've never let me go  
Should've never let me go

New space  
So different I can't explain  
When a heart breaks  
It knows how to love again

You're not in my vision  
Say goodbye to all of that  
Oh no I'll never be yours  
Liking all my pictures  
You can't leave me in the past  
No I won't miss you no more

Now you're overthinking  
Finding with your heart and your head  
Oh you're such a mess  
You're overthinking  
'Bout all the things that you never said  
You never said

Should've never let me go  
Should've never let me go  
Should've never let me go  
Should've never let me go
