

Remember My Love

Ofenbach

If this is goodbye
Close your eyes to remember my love
For one, one last time
Close your eyes to remember my love

Remember my love
Close your eyes to remember my love
The way that it was
Close your eyes to remember my

Remember my love
Close your eyes to remember my love
Remember my love
Close your eyes to remember my

Will you stay? Are you leaving?
'Cause I don't wanna lose the feeling
Baby say what you're meaning
Should I be moving on, I be moving on?

If this is goodbye
Close your eyes to remember my love
For one, one last time
Close your eyes to remember my love

Remember my love
Close your eyes to remember my love
The way that it was
Close your eyes to remember my

Remember my love
Close your eyes to remember my love
Remember my love
Close your eyes to remember my

Whatever you do
Remember my love
Every little thing
Remember my love
Whatever you do
Remember my love, my love
Remember my love

Remember my love
